- Additional Continuing Education Courses are likely to be added to the schedule for this spring. Please check the website ([www.sfiopa.org/register](http://www.sfiopa.org/register)) or call Mark at 814-230-2866 for updates.

### OTHER CONTINUING EDUCATION TRAINING

Additional training opportunities are available through numerous organizations across Pennsylvania and adjoining states. Training courses taken from other sources may qualify for PA SFI core or continuing education credit, provided the subject of the course is relevant to the SFI program, and if some legitimate form of documentation is provided to the PA SIC office for proof of content and attendance (See section 6.7 of PA SFI Training Program Policy). Outside credits are subject to all Pennsylvania SFI Professional Timber Harvester Training Program Policy requirements. To submit a Non-PA SFI training course please fill out a copy of the Non-PA SFI Course Credit Form (available on our website under "Forms" section or by contacting the PA SIC office) and send it to the PA SIC office with all necessary paperwork and a check for \$20 made payable to the "PA SFI Implementation Committee" for administrative costs. Note that a separate \$20 fee is required for each course submitted. Refer to the Training Program Policy for complete details on training requirements.

The PA SIC maintains a listing of all pre-approved Non-PA SFI CE training courses that we have been made aware of. It can be found on our website: <http://sfiopa.blogspot.com>

### SELF-PACED/ASYNCHRONOUS ONLINE LOGGER TRAINING COURSES

- Self-paced/Asynchronous online courses give training participants the flexibility to complete training when it is most convenient for them. The user is in control of what they learn, when they learn it, and where they learn it.
- Several self-directed training courses for loggers have been approved for continuing education (CE) credit in the Pennsylvania SFI Professional Timber Harvester Training Program.
- These online continuing education classes require a high-speed internet connection, and a computer or smart phone with functioning speakers.

### ➤ PROFESSIONAL TIMBER HARVESTING ESSENTIALS IS NOW AVAILABLE ONLINE

To learn more and participate in approved online logger training courses go to: <https://sfiopa.org/loggers/virtual-logger-training/>

### COURSE DESCRIPTIONS

#### CORE TRAINING:

Required to be recognized as an SFI Qualified Logging Professional. All 3 core training courses must be completed (in any order) within a 2 year period. Professional Timber Harvesting Essentials and/or Game of Logging Level 1 can be taken for CE Credit, IF you have not already completed the training in the last 5 years.

- **Professional Timber Harvesting Essentials (8 hours)** - Covers general safety considerations, chainsaw safety, logging equipment safety (harvesters, loaders, skidders, etc.), trucking safety and Occupational Safety and Health Administration (OSHA) Standards that apply to timber harvesting and related activities. Also covers pertinent aspects of Pennsylvania's Clean Streams laws and other water resource protection regulations, Best Management Practices (BMPs), hazardous material control, and logging aesthetics. **CAN NOW BE COMPLETED ONLINE**
- **Game of Logging - Level 1 (8 hours)** - Focuses on introducing the participant to the "open face" felling technique and the development of skills to safely use it. Topics covered include personal protective equipment, chainsaw safety features, chainsaw reactive forces, bore cutting, pre-planning the fell, and understanding hinge wood strength. Participants need safety equipment (hard hat, chaps, eye protection, ear protection, and sturdy boots), water, lunch, and should be prepared to spend the day outside (rain or shine). Participants are not required to provide their own chainsaw.
- **First Aid & CPR (4 hours)** - Because timber harvesting is a hazardous occupation, OSHA regulations require that everyone who works in the woods maintain current First Aid & CPR training from a provider who can issue a certificate or a card as documentation of hands-on training (i.e., no online certifications will be accepted). Individuals do not need to complete this training through the PA SFI Professional Timber Harvester Training Program; however, they must provide proof of First Aid & CPR certification to receive their initial training card (we cannot accept the MSHA 5000-23 form as satisfaction of this requirement). Course duration varies by instructor. **DOES NOT COUNT FOR CE CREDIT.**

#### CONTINUING EDUCATION (CE):

One (1) year of CE credit is given for each four (4) hours of CE training completed. CE credits can only extend your validation date a maximum of three (3) years from the current calendar year. CE credit will not be awarded for taking the same class more than once in a five (5) year period.

- **57th Annual Loggers and Saw Millers Spring Safety Meeting (4 hours)** - TO RECEIVE CE CREDIT PARTICIPANTS MUST ATTEND BOTH THE SFI UPDATE CLASS AND THE ANNUAL SAFETY MEETING THAT FOLLOWS. THIS WILL BE MORE THAN A 4-HOUR TIME COMMITMENT. Come be a part of the oldest logging safety meeting in the United States. Free dinner and door prizes. This year's training is focused on common at-risk practices (CARP).
- **Game of Logging (8 hours, each Level)** - These courses cover chainsaw safety and safe/efficient harvesting techniques. They MUST be taken in order. Level 1 (see description under Core Training section). Level 2 focuses on saw maintenance, chain sharpening techniques, releasing spring poles safely, and directional tree felling. Level 3 focuses on handling difficult trees. Topics covered include limbing, wedging techniques and hinge placement. Level 4 is a review of previous levels with participants practicing skills at working speed. Storm Damage provides tips on how to safely handle the dangerous pressures and tensions associated with blown-down and storm damage timber (Prerequisite Levels 1 and 2). Game of Logging training is conducted in the field.
- **Non-Commercial Forestry Projects for Timber Harvesters (4 hours)** - While they may not be directly profitable for the landowner, non-commercial forestry work is crucial for achieving sustainable forest management and enhancing future timber values. Public land agencies such as the Pennsylvania Game Commission (PGC) and Pennsylvania Department of Conservation and Natural Resources (PA DCNR) have funding for non-commercial forestry practices both included in their operational budgets as well as part of project-specific grants. This course aims to provide commercial loggers with the information needed to consider adding non-commercial forestry work to their service offerings.
- **Pennsylvania Wildlife (4 hours)** - a comprehensive four hour course on common wild birds and mammals found in Pennsylvania with a specific emphasis on the habitat needs of white-tailed deer, black bears and wild turkeys. Included will be segments on identifying wildlife foods, tracks, other sign and calls. The legacy of Pennsylvania's premier wildlife artist, the late Ned Smith, will also be covered.
- **Wildland Fire Prevention & Response for PA Loggers (4 hours)** - Wildfires in Pennsylvania represent a threat to safety, forest resources, logging capital, and human infrastructure. While logging operations are not frequently a major source of wildfire in our state, fires do occur on timber harvesting job sites and have the potential to expand into larger fire incidents. Participants attending this class will learn wildland fire prevention with proper machine maintenance and job site BMPs to prevent loss from fire. We will discuss weather and other signs to watch out for during increased fire danger months. What to do if a wildfire does occur on your job site, who should you report it to, what to report, fire containment and control measures with hand tools and heavy equipment on site, and how to work with first responders.
