Changing of the Guard...

Charles Brown

John Levavasseur

Nate Fice

John Levavasseur, Hancock Forest Management, was presented by the SIC at our quarterly meeting on February 9th with an engraved cherry clock for his service as Chairman of the SIC during 2009-2010. John's leadership during tough economic times and a program manager transition was crucial to the continued success of the PA SFI® Program. We greatly value his expertise and continued participation on the SIC.

We welcome Charles Brown, Glatfelter Pulp Wood Company, as the new SIC Chairman for 2011-2012. Charlie's knowledge of and longtime involvement with the program will serve to help lead us through what continues to be a growth in program services and demand for PA SFI® trained individuals. Ken Roberts, NewPage Corporation, another longtime participant on the SIC was appointed as the Vice-Chairman for 2011-2012.

Included in this newsletter is the PA SFI® Block 1 Training Schedule. Thank you to the Keystone Wood Products Association and the Northern Tier Hardwood Association for their financial support. Their use of PA Hardwood Development Council grant funds are helping us to offer a robust schedule of high quality training opportunities at a minimal registration cost to participants.

We continue to promote the use of our website, www.sfiopfa.org, to communicate with our customers, partners, and supporters. Please go to our site and sign up to be on our email list. As the training calendar is updated and the need to share important information arises, we will notify you directly by email. This not only helps us keep administrative costs down, but allows us to get the news to you quickly.

Please be sure to also read through the new training policy on page 3. After much discussion and input, the new policy became effective on January 1, 2011. The most notable change is the 3-year limit on accumulating Continuing Education credits.

Lastly, thank you to all of our financial contributors and program cooperators for your support of the program as we go forward in 2011. We couldn't and wouldn't want to do it without you.

Nate Fice

Winter 2011

(Issue #27)

The Sustainable Forestry Initiative (SFI®) program is a voluntary, industry driven effort developed to ensure that future generations will have the same abundant, healthy, and productive forests we enjoy today.

Created in 1995 by the American Forest & Paper Association (the national trade organization representing the United States forest products industry), SFI® is a program of comprehensive forestry and conservation practices, which now functions under SFI, Inc., a registered 501(c)(3) organization. In order to broaden the practice of sustainable forestry in our state, an Implementation Committee was formed to develop the Pennsylvania Sustainable Forestry Initiative®. Today, the PA SFI® program works to ensure the progress of the national initiative, here in Pennsylvania.

SFI, Inc. Program Participants in PA

These PA Companies are affiliated with the SFI® Program at the national level through independent third-party certification and provide direct involvement and support to the PA SFI® Program.

Capital Reserve	51,363
Operating Expense Reserve	25,000
Balance (Reserves Funded)	65,428
Actual Cash Balance	141,791

**PA SFI® Continuing Education (CE) Credit
Available for PA Forest Web Seminars**

The PA Forests Web Seminar Center offers one-hour online, live presentations by experts in a variety of fields related to the stewardship and issues of Pennsylvania's forest resources. Live seminars are scheduled for the second Tuesday of every month at noon and 7 p.m., except July and August.

To participate in the live seminars you must first register at the Web Seminar Center web site, <http://tnnext.cas.psu.edu/PAForestWeb/>, and have a "Friend of Penn State" user-ID and password. The "Register Now" page on the website will walk you through this two-step process.

The live versions of select one-hour seminars are now available to qualify for PA SFI® CE credit. The seminar announcement and description will indicate which programs are available for one-hour of CE credit. You will be required to request CE credit at the end of the program. Participants who request CE credit will be mailed a certificate of attendance. To receive PA SFI® CE credit, once you accumulate four (4) one-hour web seminar certificates, send a copy of the certificates along with a check for \$20 made payable to the PA SFI® SIC to cover administrative costs.

**James and Libby Walizer Receive 2010
M.K. Goddard Forest Management &
Sustainability Award**

The PA SFI® program State Implementation Committee sponsors the annual M.K. Goddard Forest Management and Sustainability Award.

This award is presented at the annual Pennsylvania Forestry Association meeting to a private forest landowner who is committed to the long-term sustainability of their forest resource through forest management planning, implementing sustainable forestry practices, and being a role model for other forest stewards.

The winner is chosen by a team of individuals through a nomination process, site visit, and interview. Choosing a recipient is challenging with so many active and deserving forest stewards in Pennsylvania.

The 2010 award winner, James and Libby Walizer, have demonstrated their exemplary forest management values on their 77 acres of forest land in Centre County. They have not only worked with researchers to improve management techniques, specifically in blight resistant chestnut silviculture, but have been researchers themselves by experimenting with new ideas, developing ingenious products such as a Tree Incubation System, and sharing their results with others through hosting educational programs on their property.

It's their dedication to education and volunteering with several organizations, such as the PA Tree Farm Committee, the PA Forest Stewards, the Chestnut Foundation, and the PA Forestry Association to name a few, that takes them above and beyond as forest stewards.

Their accomplishments and accolades are too many to list, but a few notable past achievements are the 2001 Pennsylvania Outstanding Tree Farm of the Year, the 2006 Northeast Region Outstanding Tree Farm of the Year, the 2006 Mid-Atlantic Master Farmer, and volunteer of the Year with Penn State Cooperative Extension.

PA SFI® SIC Program Supporters

Program "Supporters" help to promote sustainable forestry practices and pledge meaningful contributions.

2010 Logger Training Results

- 74** Individuals Completed Core Training Requirements
- 517** Individuals Attended Training
- 723** Training Units Recorded
- 43** Training Programs Conducted/Awarded CE Credit
- 727** Individuals Hold Current PA SFI® Training Cards (As of 12/18/2010)

Inconsistent Practices Form

Inconsistent practices either cause, or have the potential to cause, problems associated with a timber harvest. Likely issues are soil erosion, failed regeneration, or poor residual stand conditions; all have negative consequences on forest sustainability. The Inconsistent Practices program provides a venue for reporting and addressing these concerns. The form can be downloaded at www.sfiopa.org under "Forms" or by contacting the PA SFI® office.

Pennsylvania Sustainable Forestry Initiative®

State Implementation Committee
Training Program
Policy

Effective 1/1/2011

Mission

The mission of the Pennsylvania Sustainable Forestry Initiative® (PA SFI®) Training Program is to provide an educational training system that promotes sustainable forest management, operational safety, skill improvement, and profitability to meet the needs of the timber industry in Pennsylvania, Pennsylvania forest landowners, and the Sustainable Forestry Initiative®, Inc.

PA SFI® Training Committee

The Training Committee, a subcommittee of the PA SFI® State Implementation Committee, is responsible for oversight and review of course development, training program policy, and training program direction.

Core Training

Core training is intended to provide a basic level of knowledge from which individuals will expand their professional development through continuing education. Once an individual has completed the Core training requirements they will be considered "PA SFI® Trained" and receive a PA SFI® Training Card.

1. Core training consists of **Environmental Logging** (8 hours), **Logging Safety** (8 hours), and proof of current **First Aid/CPR** certification.
2. Core training must be completed within a 24 month period.
3. An individual will be considered "PA SFI® trained" until December 31st of the year following the year the Core training was completed. (Example: Core training was completed during 2010 calendar year. PA SFI® training will expire on December 31, 2011 unless Continuing Education requirements were met.)
4. If an individual's PA SFI® Training Card has been expired for five (5) years or more, they will have to retake the Core training to receive a new card.
5. SFI® training from other states may satisfy one or all of the Core training requirements depending on course content, training dates, and completion of special requirements, if necessary. An SFI® Trained individual from another state wishing to receive a PA SFI® Training Card should contact the PA SFI® office for more details. In the event SFI® training from another state meets the PA SFI® Core Training requirements, the individual will be required to submit proof of their current training record from the other state along with a check for \$20 made out to the "PA SFI® SIC" to cover administrative expenses.
6. Core training courses will be reviewed annually by the Training Committee to ensure the information presented is current and applicable.

Continuing Education

Continuing Education (CE) courses are intended to provide individuals with current training and information in specific subject areas. CE training is required to maintain a valid PA SFI® Training Card.

1. Each four (4) hours of approved CE training will count for one (1) year of CE credit and extend the PA SFI® Training Card expiration date by one (1) calendar year. Four (4) hours of training can be accumulated by attending four (4) one-hour qualified programs (see #5) (i.e. Penn State University Webinar) or any combination of training hours that add up to a minimum of four (4) hours.
2. CE credits may only be accumulated for a period of three (3) years, regardless of the number of hours of training completed. PA SFI® training card holders with expiration dates beyond three (3) years will still be valid through their current date.
3. CE credit will not be awarded for retaking Core training courses unless significant changes have been made to the course curriculum, since the individual last attended the training.
4. CE credit will not be awarded for any class taken more than once in a 5-year period, unless significant changes have been made to the course curriculum, since the individual last attended the training. The Annual CE Update Class is excluded, but can only be taken once per year.
5. CE credit may be awarded for training not sponsored by the PA SFI® Training Program. An individual requesting to receive PA SFI® CE credit for training not sponsored by the PA SFI® program must submit an agenda for the session to the PA SFI® office to determine if the training is eligible for CE credit and how many credits will be awarded. The request should be made *prior* to the session. If the session (or multiple sessions submitted at the same time, see #1) by an individual is approved for CE credit, the individual must submit proof of attendance and a check made out to "PA SFI® SIC" for \$20 to cover administrative expenses and receive CE credit.
6. PA SFI® Continuing Education courses should be reviewed annually by the Training Committee to ensure the information presented is current and applicable.

PA SFI® Training Cards

1. Individuals who have completed the Core Training requirements or have been awarded CE credit will be provided with a comprehensive training report which includes a "cut out" PA SFI® Training Card.

Records

1. The PA SFI® program will be responsible for keeping records that verify the training status of an individual.
2. Reports showing a PA SFI® trained individual's ID#, name, city, state and training card expiration date will be posted on the PA SFI® SIC website, www.sfiopa.org, on a monthly basis. Individuals wishing to not have their information posted on the website must contact the PA SFI® office.

Statewide EAB Quarantine to be Official April 15

The PA Department of Agriculture officially announced that it will drop its in-state quarantine of ash materials and hardwood firewood effective April 15. Ash material, hardwood chips and hardwood firewood will be allowed to move freely within Pennsylvania on this date. However, the parallel federal quarantine remains in effect, which will now cover the entire state of Pennsylvania. USDA APHIS will continue to prohibit the movement of regulated ash material, hardwood chips/mulch and hardwood firewood from Pennsylvania in an effort to help stop the spread of EAB to other states and export markets.

USDA APHIS will also continue to make available compliance agreements to mills that can demonstrate that their ash material is EAB free as a result of processing or heat treatment. PFPA will be holding a number of meetings in March for industry in eastern PA to meet with APHIS officials and to learn about these compliance agreements. Contact PFPA (717) 901-0420 for meeting dates and locations.

The existing state quarantine for EAB was expanded to 43 counties last summer. This new action is not in response to any new discoveries of EAB, but rather a resignation by state officials that the spread of the pest was too rapid and is too extensive to make continuation of the in-state quarantine productive. The announcement from the state did not mention any agreement to allow the interstate movement of ash into adjacent states also under EAB quarantine. This agreement is still expected to be finalized this spring.

Paul Lyskava, PFPA

Timber Show 2011 Forest Products Exposition

Friday 6/3/2011 – Saturday 6/4/2011

Timber 2011 will be the best marketing opportunity to reach forest product companies in the leading hardwood producing state in the nation. Timber 2011 will be held June 3 - 4, 2011 at Penn State's Ag Progress Days site at Rock Springs, Pa., nine miles southwest of State College on Pa. Route 45. Centrally located and easily accessible to forest product companies in Pennsylvania and surrounding states, the 55 acres of exhibition grounds include indoor and outdoor exhibit options, with ample space for on-site and "in-the-woods" equipment demonstrations. Timber 2011 combines the resources of PFPA—Pennsylvania's largest forest products trade association—and Penn State, the state's land-grant university that offers a nationally recognized forestry and forest products program, as well as experience in hosting quality commercial trade events.

There will be a variety of educational opportunities for attendees to participate in. PA SFI® trained individuals can attend 3, one-hour workshops over the two days and receive 4 hours of Continuing Education credit. No pre-registration is required. Cost to receive credit is \$20 payable at the door. Contact the PA SFI® office if you have questions.

Pennsylvania Sustainable Forestry Initiative® (SFI®)

Block 1 Training Schedule: March 15th through June 4th 2011

Pre-Registration and payment for all classes is required by the registration deadline.

Core Training - Must complete Environmental Logging, Logging Safety, and provide proof of First Aid/CPR within a 2-year period to receive a PA SFI® Training Card.
